Safeguard duty boosts ArcelorMittal JV profits

ROAD AHEAD. Management maintains its bullish stance on India

Abhishek Law
New Delhi

India remains a key focus market for global steel giant ArcelorMittal, with the company witnessing a 2.8 per cent rise in sales from its India JV with Nippon Steel to $1.5 billion in Q2CY25 (April-June), up from $1.4 billion in the January-March quarter.

The EBITDA for the JV, AMNS India, jumped sharply to $200 million in Q2CY25, up nearly 100 per cent over $101 million in Q1CY25, primarily due to an increase in average steel prices, supported by safeguard measures introduced during the quarter.

"Steel prices recovered following the introduction of a 12 per cent steel import safeguard duty in April," the company informed investors.

Production improved 8 per cent-odd to 1,827 kilo tonnes (kt) in the April-June period compared to 1,684 kt in the January-March period.

"EBITDA during Q2 2025 improved significantly to $200 million compared to $101 million in Q1 2025, driven primarily by higher steel selling prices," the company said in its global filings. However, compared to Q2CY24, there was a 16 per cent drop in EBITDA. The EBITDA in the year-ago period stood at $237 million. The dip in the share of profit from AM/NS India dipped primarily due to lower shipment volumes, down 5.7 per cent.

The management has maintained its bullish stance on India, which it describes as a "structurally high-growth market" with supportive demand drivers, including infrastructure push and rising per capita steel consumption.

"ArcelorMittal has investments in various joint ventures and associate entities globally.....and considers AMNS India (60 per cent equity interest) to be of particular strategic importance," the company told investors.

ANDHRA EXPANSION

The proposed greenfield plant in Andhra Pradesh is moving ahead on schedule. The joint venture has acquired approximately 2,200 acres at Rajayyapeta in Anakapalli district, where a 7.3 million tonne per annum (mtpa) steel plant is coming up in Phase I.

The project entails a capital outlay of ₹55,964 crore ($670 million) and is expected to be commissioned by January 2029.

Phase II will see an additional 10.5 mtpa capacity, taking total investments to ₹1.35 lakh crore ($1.6 billion).

A 1-GW hybrid renewable energy project—solar, wind, and hydro—has commenced supply to the Hazira steel plant. Once fully commissioned, it is expected to reduce carbon emissions by 1.5 mtpa and generate $100 million in incremental EBITDA.

At Hazira, expansion from 9 mtpa to 15 mtpa continues as planned.

City Union Bank profit up 16% in Q1

Our Bureau
Chennai

City Union Bank on Thursday reported a 16 per cent rise in net profit at ₹306 crore for the quarter ended June 30 (Q1FY26).

The private sector bank crossed the ₹300-crore mark of quarterly PAT for the first time in its history.

Net interest income grew 15 per cent at ₹625 crore. Boosted by treasury profit, non-interest income saw a robust growth too.

With targeted efforts by the bank, deposits increased 20 per cent to ₹65,734 crore in the quarter. Advances increased 16 per cent and stood at ₹54,020 crore.

GROWTH REBOUND

"We rebounded from the growth challenges we saw back in 2023-24 and posted 14 per cent growth in 2024-25 and this momentum is continuing into Q1 of this fiscal," N Kamakodi, CEO, City Union Bank, said.

The advances growth was accompanied by improvement in asset quality as Gross NPA for Q1FY26 reduced to 2.99 per cent (3.88 per cent). Net NPA decreased to 1.20 per cent (1.87 per cent).

SP Group likely to monetise stake in Tata Sons, talks on

Our Bureau
Mumbai

The Shapoorji Pallonji (SP) Group, which so far insisted on listing Tata Group holding company Tata Sons, is understood to be willing to explore ways to monetise its stake, including a partial divestment, according to sources with knowledge of the matter.

Sources indicated that discussions are already underway to arrive at some agreement as to how best to undertake the monetisation exercise, since the entire stake held by the SP group is pledged with lenders.

Tata Group and SP Group did not respond to emails sent to them seeking clarification.

REDUCE DEBT

The SP Group, with a stake of 18.37 per cent stake in Tata Sons, is the single-largest minority shareholder. The SP Group is looking to reduce its indebtedness by monetising its stake.

The SP Group's flagship Shapoorji Pallonji and Company Private Ltd's consolidated debt reduced to ₹20,000 crore as on March 31, 2024, from ₹37,000 crore in 2020 and it is attempting to reduce it further through strategic divestments in group firms. The SP Group recently received time till June 2028 from the RBI for its investment arm Sterling Investment Corp to meet its capital adequacy norms. This means that the SP Group can go ahead with its $3.4-billion private credit deal without any increase in yields.

Earlier this week, Tata Trusts, which holds over 66 per cent stake in Tata Sons, directed the latter to remain unlisted but also to provide an exit to the SP Group and to explore all options. The elevation of Noel Tata, who is related to the SP Group by marriage, as Chairman of Tata Trusts, has paved the way for better cooperation between the two groups. Relations had soured when Cyrus Mistry had been the Chairman.

Tata Sons was categorised as a Core Investment Company and placed in the upper layer NBFC in 2022 by the RBI and under regulations has to be listed by the end of September this year.

The holding company of the group has no desire to be listed and has applied to the RBI for voluntary surrender of the Certificate of Registration as a CIC and to continue as an 'Unregistered CIC,' in accordance with the prescribed procedure.

Google's new policy to accommodate real money gaming apps on Google Play

Vallari Sanzgiri
Mumbai

Google LLC on Thursday proposed to come up with specific criteria for onboarding real-money gaming (RMG) apps on Google Play platform to address the anti-trust allegations and related probe initiated by the Competition Commission of India (CCI) last year. After receiving the proposal from the tech giant, the anti-trust watchdog has invited stakeholders to submit their comments by August 20.

As per the public proposal, Google will allow all self-declared RMG apps on Google Play in India if developers provide certification from "a reputable and authoritative" third party body. This may include indsutry associations such as All India gaming Federation (AIGF), E Gaming Federation (EGF) and Federation of Indian Fantasy Sports (FIFS). Doing so resolves the alleged exclusion of RMG apps and favouring of Daily Fantasy Sports (DFS) and rummy apps, said Google.

"The RMG Policy Update addresses the CCI's concerns [of competitive disadvantages to certain RMGs]. By permitting all RMGs self-declared by developers as permissible online RMGs, the competitive field is levelled," said Google in the proposal.

AD POLICY

The changes will also be integrated into Google's Ad policy that earlier allegedly restricted RMG apps other than DFS and Rummy from advertising on its platform. These games will be advertised in India if the advertiser proves via certification that the RMG is a 'skill game.'

The CCI had also flagged alleged targeting of certain RMG apps by way of payment warnings displays on Google Pay for certain transactions. On this, Google said such warnings are applied uniformly and are necessary under the directives of the Reserve Bank of India and the National Payments Corporation of India.

"They are not specific to any consumer, individual merchant, or a particular product "class", nor do they differentiate between developers distributed on Google Play or outside of Google Play," said Google.

Reacting to the news, Winzo Games that originally complained to the CCI, said, "Google's discriminatory conduct has sidelined this wave of innovation, offering legacy Fantasy and Rummy platforms an unfair head start in access, trust, and capital. This has stifled one of Digital India's most dynamic sectors, built on creativity, entrepreneurship, and inclusion. With the right support, this sector can become a $60 billion global powerhouse in under a decade, powering digital exports, job creation, and India's rise as a global gaming leader."

Starlink granted licence for satellite services in India

Our Bureau
New Delhi

Government on Thursday said that Elon Musk-led Starlink has received its licence to launch satellite communication (satcom) services in India, and a framework for spectrum allocation was also in place for a smooth rollout.

"Starlink has been granted a Unified License to launch satellite Internet services in India. Frameworks for spectrum allocation and gateway establishment are ready, ensuring smooth rollout," Jyotiraditya Scindia, Minister of Telecommunications said at the anniversary event.

Along with Starlink, Bharti Group-backed Eutelsat OneWeb and Jio-SES are also awaiting spectrum allocation.

The Minister also said that telephone connections in the country now stand at 1.2 billion and Internet subscriptions have surged by nearly 286 per cent to reach 970 million.

He also highlighted that the revival of BSNL has been a major breakthrough during these years.
